

# *The ultimate hunting trip*

We arrived at the hunting camp on Sunday in May 2009. We felt immediately at home. Little did we know then about all the coming adventures. From that day on all we experienced overcame anything we could ever imagined.

The nature around us was incredibly beautiful and full of wild life, and we were ready for spring black bear hunting. We went into the wilderness by foot, by boat ,by horse, by car and by ATV` s looking for bears, and we saw them. Thanks to fantastic guides, every day was a new exciting adventure. We got our bears after some days of great hunting . We were also very impressed with everything you told us not just about hunting but about the nature and wildlife around us.

We just wished that our week of hunting with you guys , could have lasted much longer. One thing`s for sure ,we will never forget these awesome days.

You can be absolutely sure, we` ll be back! We want to experience the atmosphere you are so good at creating. You are fantastic when it comes to taking care of everyone around you.

Every evening after returning to camp we were served lovely food that Marika had prepared for us, and she`s a really good cook. Then we sat down by the camp fire watching "bush tv" ( we were staring into the flames), listening to good stories and not to forget the singing. A special thanks to the duo Mike and Darcy!

Thank you Mike and Marika for giving us the all time hunting adventure!

Inger&Einar from Norway!
